### **Unable to Change Screen Resolution on Windows 10 ...**

I am unable to change a screen resolution. It is currently at the lowest level. I do not know how it happened. Please help. Thank you.

### **Unable to change screen resolution...Display problems ...**

The screen freezes at the basic resolution and when you go to screen resolution settings in Windows 10, it seems to be grayed out which means you can't change the setting. The main cause of this issue seems to be incompatible or outdated Display Drivers which seems to conflict with Windows and hence creating the problem.

### **Fix Can't Change Screen Resolution in Windows 10 ...**

Unable to change resolution in display settings I've posted previously in the forums elsewhere, but I thought I'd try my luck here as the last post was unsuccessful. Since upgrading to vista recently, I've had a lot of trouble with my display properties.

### **Unable to change resolution in display settings ...**

But for a further screen resolution adjusting, click Advance Display Settings below the buttons and go to the next step. Step 2: Change Screen Resolution. Select proper Resolution from the drop-down menu and click Apply. Then you see countdown note and you can preview the screen resolution change.

### **Solved: Can't Adjust Screen Resolution in Windows 10 ...**

Re: Unable to adjust screen resolution properly on brand new PC Since it was ok after deleting the driver and rebooting, and then suddenly went blank and came back incorrectly suggests the video driver was being auto-updated in the background with a corrupt (or possibly incorrect) driver.

### **Cant change Screen Resolution on Windows 10 \*FIX\***

If you can't change screen resolution, and the Display shows Generic Non-PnP Monitor, don't worry. Follow instructions in this post and the problem should resolve. First, try this and it may work for you like a charm: 1. Turn off the computer and monitor. 2. Unplug the power supply wire that is plugged to the monitor. 3.

### **[Solved] Can't Change Screen Resolution in Windows 7 ...**

Cannot Change Screen Resolution in Windows 10 If the issue is with your Computer or a Laptop you should try using Reimage Plus which can scan the repositories and replace corrupt and missing files. This works in most cases, where the issue is originated due to a system corruption.

### **Cannot Change Screen Resolution in Windows 10 - Appuals.com**

Windows 7: Can't change my resolution... Windows 7 will not use the monitors native info file but instead uses his own. One way around is to create your own resolutions (with the Nvidia Control Panel, you are able to do that depending on the driver) and use these custom resolutions instead.

### **Can't change my resolution... - Windows 7 Help Forums**

Re: Unable to Change Resolution 17" flat panel, plug and play. The monitor did not have any software that needed to be installed, and I have been using it with this system for a year and a half with no problems.

### **Unable to Change Resolution - Dell Community**

Cannot change the screen resolution of Windows 8 System I want to change the screen resolution of my Windows 8 System, as I do not like the default. When I changed the resolution as per my wish, it is not showing the change.

### **Cannot change the screen resolution of Windows 8 System**

Monitor is listed as generic, can't change resolution. I'm pretty sure the reason I can't change the resolution on my monitor is because it is listed as Generic PnP in Device Manager. Although in Control Panel-->Display the model number is listed.

### **Monitor is listed as generic, can't change resolution ...**

And because screen resolution settings have been moved, changing screen resolution in Windows 10 is not as easy it was before. While right-clicking on Windows 10 desktop and clicking Display setting opens Display settings in Settings app, first time users will find it difficult to locate the option and change screen resolution in Windows 10.

### **How To Change Screen Resolution In Windows 10**

So the thing is, the question has been asked already in here. I'll repeat it again as there are a few changes that's not allowing me to stick to the previous answer. I own a eMachines eM350 and I recently installed Win 7 Ultimate (64-bit) over Win 7 Starter (32-bit) I'm not able to change my screen resolution at all.
