Stylometry is the application of the study of linguistic style, usually to written language, but it has successfully been applied to music and to fine-art paintings as well.. Stylometry is often used to attribute authorship to anonymous or disputed documents. It has legal as well as academic and

literary applications, ranging from the question of the authorship of Shakespeare's works to ...

Stylometry - Wikipedia

I have a dream comes up a lot and he wants to get the point through peoples mind and so he uses a lot of sentences because he doesn't want to live like this or have his family and other families all across the world live the way he had to. what he is saying is I don't want to put up with this anymore, and we people do not want to be judged by our colour, hair, or the way we look but by the ...

Speech Analysis: I Have a Dream - Martin Luther King Jr.

Fig. 1 lists the main steps for the text mining process used in our study. By following the three steps (pre-processing, applying text mining, and evaluating the mining results and recognize actionable information), we were able to identify new knowledge including patterns, issues and themes from the collected social media data.
