Understanding by Design, or UbD, is an educational planning approach. UbD is an example of backward design, the practice of looking at the outcomes in order to design curriculum units, performance assessments, and classroom instruction. UbD focuses on teaching to achieve understanding. It is advocated by Jay McTighe and Grant Wiggins in their Understanding by Design (1998), published by the ...

As I read the chapter “Essential Questions: Doorways to Understanding” in Understanding by Design, I realized that many educators I know have an erroneous understanding of what essential questions are and how to use them. For instance, I can remember the middle school principal I worked with encouraging me to post essential questions on my board.

What is an essential question? An essential question is – well, essential: important, vital, at the heart of the matter – the essence of the issue. Think of questions in your life that fit this definition – but don’t just yet think about it like a teacher; consider the question as a thoughtful adult.
